APELLO

Data-Driven Prior Authorization Solution

Denial Prevention | Clinical Expertise | Claim Review Technology

Maximize your financial value and minimize claim denials with Apello's AI-driven features that enables 5X faster reviews, reduces your average days in AR, and accelerates cashflow.

Advent Health Partners combines clinical expertise with Apello™, our advanced appeal and claim technology, to combat prior authorization denials. Our clinical experts have extensive knowledge of payer policies, guidelines, and regulatory requirements, enabling them to navigate the complex landscape of prior authorizations effectively. Additionally, we use Apello™ and data-driven insights to streamline the prior authorization process and ensure all requirements are met. This approach saves clients time and resources, enabling them to focus on delivering quality patient care.

Prior Authorization Benefits with Apello

Quickly Review and Compare

Payer policies, guidelines, third-party requirements, and medical records are accessible within the Apello™ platform. All of the information is displayed on a single screen, reducing the search for required clinical information.

Reduce Cognitive Burden

Apello™ technology can reduce your staff's burden by automating tedious tasks, allowing your staff to focus on higher-value efforts.

Real-time Insights

Apello™ provides real-time, actionable insights enabling your team to make timely and accurate data-driven decisions.
